Chairman's Report

Dear Shareholders,

On behalf of the Board of Directors, I'm glad to present the Chairman's Report and Financial Statements of Ahli Bank SAOG for the half year ended June 30, 2020 (Q2 and H1 report).

COVID-19 pandemic has had an unprecedented impact on financial markets globally and in Oman. Experts are unanimous in their view that the effects of this pandemic on financial sector will be for a very long time. Oman has however responded incisively to the pandemic with the Supreme Committee formulated under the directives of His Majesty by taking a number of measures to reboot the economy. The Central Bank of Oman (CBO) has also come up with a comprehensive stimulus package to revive liquidity in the economy in addition to recommending a set of precautionary measures for the banking sector.

Digitalization is accelerating with the COVID-19 pandemic and the Banking sector has seen vast increase in online and mobile banking services as digital interaction with Banks has become the preferable option for the customers. ahlibank continues to serve its customers through various e-channels in addition to bank's branches operating as usual, by adhering to the directives of the Supreme Committee and the regulators.

Financial Performance

The Bank's total assets grew by 4.8% as of June 2020 on a year-on-year basis to reach RO 2.49 billion. Loans & advances and financing grew by 8.1% to reach RO 2.15 billion. The customer deposits went up by marginally by 1.7% to reach RO 1.64 billion.

| CONTRACTOR AND A SECURITION OF THE SECURITION OF | 30-June-20 | 30-June-19 | Growth % |
|--|------------|------------|--------------|
| | RO Mil | lion | Telepine III |
| Total assets | 2,497.2 | 2,382.8 | 4.8 |
| Loans & advances and financing, net | 2,148.1 | 1,987.5 | 8.1 |
| Customers' deposits | 1,639.7 | 1,612.4 | 1.7 |
| Equity | 377.1 | 375.2 | 0.5 |
| Operating income | 36.32 | 34.24 | 6.1 |
| Operating expenses | 15.30 | 13.47 | 13.6 |
| Profit for the period | 12.50 | 14.92 | (16.2) |

The Bank's operating income increased by 6.1% to reach RO 36.32 million for the period ended June 30, 2020. The operating expenses increased by 13.6% mainly due to RO 1

Million donation contributed by ahlibank in March 2020 to Ministry of Health in supporting the Supreme Committee's efforts in controlling the pandemic. The profit for the period was lower by 16.2% mainly due to additional impairment charge taken given the prevailing operating environment due to Covid-19 impact.

ahlibank continues to pursue a prudent growth strategy and remains focused on high quality assets and well managed liquidity.

Achievements

Continuing its pro-customer initiatives, ahlibank, entered into a strategic alliance with Dhofar Insurance Company, offering its customers retail products including Motor, Travel, Persona accident & others under its 'Bancassurance' portfolio. The second quarter also witnessed the announcement of 'Salary for Life' draw under the 2020 Wafra Prize Scheme. An upgraded B2B electronic platform – 'Ahli B2B', was rolled out for corporate customers with a host of special features. ahlibank held its Extraordinary General Meeting and Annual Ordinary General Meeting on June 3, via the electronic platform for general meetings on Muscat Clearing and Depository's website and elected its new Board of Directors.

Corporate Social Responsibility

The Bank has always been in the forefront of contributing to the success of various humanitarian and community oriented initiatives that benefit the country and the society. As part of its social responsibility initiative (Ahli cares), ahlibank extended financial support, for the seventh year in a row, to the 'Fak Kurba' initiative implemented by the Oman Lawyers' Association (OLA) in coordination with the Ministry of Social Development and the Council of Administrative Affairs for the Judiciary. This humanitarian initiative has over the years facilitated a number of people to rebuild their lives and has also brought joy to their families during the Holy Month of Ramadan. The Bank also extended support to a number of charity associations during the Holy Month of Ramadan in line with its Corporate Social Responsibility (CSR) initiatives.

Looking Ahead

ahlibank stands committed to maintain steady growth and continue the proactive customer-oriented initiatives. COVID-19 pandemic has underlined the need for business transformation to sustain and thrive in the future and also offers a new set of opportunities that demands innovative ways of doing business. ahlibank will continue to pursue and enhance customer-oriented financial services further to provide seamless customer

experience and also serve the nation's varied needs. Information and communications technology (ICT) sector is expected to attract more investments, given the rapid rate of digitalisation or transfer of transactions to the digital formats. Such a shift would align with existing strategies to bolster ICT development, a key pillar of Vision 2040, the country's long-term development plan. ahlibank will continue to seize the opportunities in the ICT sector for customer service excellence.

Like most other sectors, Banks are facing an environment of extremely high uncertainty due to the impact of COVID-19. At this stage, predicting the specifics of the 'new normal' is virtually impossible. However, ahlibank remains optimistic that with the introduction of laws related to public & private partnerships, foreign capital investments, bankruptcy etc., and other proactive measures taken by the Government will result in turnaround of Oman's economy, very soon.

Acknowledgments

On behalf of the Board of Directors, we would like to renew our support and allegiance to His Majesty Sultan Haitham Bin Tarik, in continuing the Sultanate's growth march and leading the country for further progress and prosperity.

With the global economy and the Banking sector facing unprecedented challenges due to Covid-19, we remain fully supportive to the Government, the Ministry of Health, the Supreme Committee, the Central Bank of Oman, and other regulatory authorities in adhering to the procedures that protect the Sultanate and all its residents; and will continue to provide economic relief systems to support customers.

Finally, I would like to convey our acknowledgement and appreciation to the Bank's Executive Management team and employees for their commitment and dedication to the overall success of the Bank, especially in the light of the COVID-19 pandemic. Lastly, but certainly not the least – I would like to thank our customers for their continued loyalty and trust.

Hamdan Ali Nasser Al Hinai Chairman

The accompanying notes 1 to 22 form an integral part of these interim condensed financial statements.

1. LEGAL STATUS AND PRINCIPAL ACTIVITIES

Ahli Bank SAOG (the Bank) is a joint stock company incorporated in the Sultanate of Oman and is engaged in the commercial banking activities through a network of 28 branches (18 conventional and 10 Islamic branches). The registered address of the Bank is PO Box 545, Mina Al Fahal, Postal Code 116, Sultanate of Oman.

The Bank employed 685 employees as at 30 June 2020 compared to 625 as at 30 June 2019 and 656 as at 31 December 2019.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The unaudited interim condensed financial statements for the six month period ended 30 June 2020 of the Bank are prepared in accordance with International Accounting Standard (IAS) 34, 'Interim Financial Reporting', applicable regulations of the Central Bank of Oman (CBO) and the disclosure requirements set out in the Rules and Disclosure and Proformas issued by the Capital Market Authority (CMA).

The unaudited interim condensed financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards. In addition, results for the six month period ended 30 June 2020 are not necessarily indicative of the results that may be expected for the financial year 2020.

The accounting policies applied in these interim condensed financial statements are the same as those applied in the annual financial statements for the year ended 31 December 2019.

The unaudited interim condensed financial statements are prepared under the historical cost convention as modified for the measurement at fair value of derivatives and investment securities other than those measured at amortised cost.

The functional and presentation currency of the Bank is the Rial Omani (RO). These unaudited interim condensed financial statements of the Bank are prepared in RO. Certain figures are also presented in US dollars (US\$) for information purposes as a supplementary information only, using the exchange rate of RO 0.385 = US\$ 1.00.

3. CHANGES IN ACCOUNTING POLICIES

Interest rate benchmark reform - Amendments to IFRS 9, IAS 39 and IFRS 7

The United Kingdom's Financial Conduct Authority ('FCA'), which regulates the London Interbank Offered Rate ('LIBOR'), has announced that the interest benchmark would cease after 2021. While an alternative risk-free rate, "SOFR" has been announced, there is uncertainty as to the method and timing of transition and implications on the participants in the financial markets.

Ahlibank has following instruments which are exposed to the impact of USD LIBOR:

- Financial Assets RO 480.961 million equivalent to US\$ 1,249.249 million.
- Financial Liabilities RO 490.380 million equivalent to US\$ 1,273.714 million.

In addition, the Bank's exposure to Interest rate swaps in hedging relationships may also be impacted by LIBOR replacement. The notional value of these swaps is RO 205.159 million equivalent to US\$ 532.879 million as of 30th lune 2020.

The Bank believes that, when the LIBOR ceases to exist, its contracts with interest rates based on LIBOR would adequately provide for alternate calculations of interest in the event that LIBOR is unavailable. As of now, the Bank does not anticipate any material adverse impact on its financial statements of the change based on an understanding that the replacement rate, along with relevant spreads, will be based on prevailing fair values.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENT

In preparing these interim condensed financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. The significant judgements made by management in applying the Bank's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 31 December 2019, except for the estimates as described below.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENT (Continued)

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Coronavirus (Covid-19) outbreak and its impact

The Covid-19 pandemic has caused an unprecedented human and health crisis. The measures necessary to contain the virus have triggered an economic downturn. On 11 March 2020, the World Health Organization ("WHO") officially declared COVID-19 a global pandemic. At this point, there is great uncertainty about its severity and length. In light of the rapid spread of COVID-19 across the globe, various economies and sectors have faced significant disruptions and uncertainty and governments and authorities have instigated a host of measures to contain or delay the spread of the virus.

The Covid-19 pandemic has been accompanied by a low oil price, a major driver of the economy of the Sultanate. Loss of oil revenues, tourism revenues and disruption to supply chains has resulted in a weakening outlook for the macroeconomic environment. The Central Bank of Oman ('CBO') have initiated a series of measures, in conjunction with other Government programmes, to support the ability of banks to supply credit to businesses and households through this period of economic disruption.

International Accounting Standard Board(IASB) has issued a guidance note on 27 March 2020 in regard to accounting for expected credit losses by applying IFRS 9- Financial Instruments in the light of current uncertainty resulting from the Covid-19 pandemic. It provides a guidance on the assessment of significant increase in credit risk (SICR) and the measurement of expected credit loss allowance (ECL) which are required to be based on reasonable and supportable information that is available without undue cost or effort. In assessing macro economic scenarios, consideration should be given both to the effects of covid-19 and the significant government support measures being undertaken in respect of Covid-19 pandemic.

In line with other global regulators, the Central Bank of Oman (CBO) has taken several measures to overcome the prevailing economic conditions such as accepting deferment of loan instalments / interest / profit for affected borrowers particularly SMEs for 6 months without impacting the IFRS 9 risk classification of such loans, deferring the risk classification of loans pertaining to government projects for a period of 6 months etc., Additionally, CBO seeks to facilitate additional lending and liquidity capacity of banks, through the relief of existing capital and liquidity buffers, which have been further elaborated in the sections below:

I. Credit risk management

The Bank's existing credit risk management practices are disclosed in note 36.1 to the financial statements for the year ended 31 December 2019. There are no changes as compared to last year.

I(a). Covid-19 impact on measurement of ECL

A key element in determining the ECL is the assessment of whether a SICR has occurred or not, and accordingly a lifetime Probability of Default (PD) or a 12-month PD is applied. Based on CBO circular in respect of IFRS 9 application, deferment period relating to Covid-19 outbreak will be excluded from the counting of days past due (DPD) for determining the default. Accordingly, the deferment of loan repayment may not be a sole deciding factor for exposure considered to have a SICR or credit impaired, until & unless other supportable evidence exists for detoriation in the credit quality of borrowers.

The main industries such as airline / transportation, hospitality, tourism, oil & gas and automotive sectors will have a significant impact on account of covid-19. Finance companies may also face impacts of this situation due to their exposure towards SME and Retail business impacted by COVID-19. The identification of impacted sectors were based on market assessement, financial information of the borrowers, customer requests for deferments etc.

I(b). Measurement/Impact on ECL

IFRS 9 framework requires the estimation of Expected Credit Loss (ECL) based on current and forecast economic conditions. In order to assess ECL under forecast economic conditions, the Bank utilizes a range of economic scenarios of varying severity, and with appropriate weightings, to ensure that ECL estimates are representative of a range of possible economic outcomes. As per CBO circular BSD/CB/2020/005 dated 03 June 2020, CBO has cautioned the banks in making changes to ECL model on the impact due to covid-19 distress since this will subject to high levels of uncertainity and miscalculation as reasonable and supportable forward looking information may not be currently available to substantiate those changes.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENT (Continued)

I. Credit risk management (Continued)

I(b). Measurement/Impact on ECL (Continued)

The Bank has reviewed the potential impact of COVID-19 outbreak on the inputs and assumptions used in IFRS 9 ECL model in light of available information. The Bank has conducted multi-pronged assessment which will help in establishing overlays in accordance with the circular as mentioned above. Accordingly, detailed analysis was carried out by incorporating changes to weights of economic scenarios, reduction in oil prices and a decline in GDP growth. The results of these scenarios vary widely depending on the severity of downturn and as such the Bank has incorporated an overlay which is included in the net impairment charge amounting to RO 3.6 million.

For computation of ECL, the Bank revised the scenario weightages and incorporated in the ECL model i.e., Good, bad and base with weightage of 25%, 25% and 50% respectively.

The overall impact of the Covid-19 revised scenarios and other related judgmental overlays on the ECL is shown below:

| 30-Ju | n-20 | ys without overlays Overlays 00 RO'000 RO' 913 Retail 15,751 732 Corporate 31,082 891 Others 1,113 | -Jun-20 | |

5. LOANS & ADVANCES AND FINANCING, NET (CONTINUED)

5.2 Comparison of provision held as per IFRS 9 and required as per CBO norms

In accordance with CBO circular BM 1149 Banks should continue to maintain and update the risk classification (i.e. standard, special mention, substandard, etc.) of accounts as per CBO norms, including those on restructuring of loan accounts for regulatory reporting purposes. Disclosure requirements containing the risk classification-wise gross and net amount outstanding, provision required as per CBO norms, allowance made as per IFRS 9, interest recognised as per IFRS 9 and reserve interest required as per CBO are given below based on CBO circular BM 1149.

| Asset classification as per CBO norms | Asset classification as per IFRS 9 | Gross amount | Provision required as per CBO norms | Provision held as per IFRS 9 | Difference between CBO provision required and provision held | Net amount as per CBO norms* | Net amount as per IFRS 9 | Reserve interest as per CBO norms |

16. SEGMENT INFORMATION

is presented in respect of the Bank's operating segments. For management purposes, the Bank is organised into two operating segments based on products and services as follows:

- Retail banking includes customers' deposits, unrestricted investments accounts, consumer loans, overdrafts, credit card, Islamic financing and fund transfer facilities.
 Wholesale banking, treasury and investments include deposits including current accounts, term deposits, loans & advances and Islamic financing etc. for corporate and institutional customers, treasury, trade finance and investment banking services.

The Management Committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on the profit after tax. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to business segments based on pool rate, which is approximates the cost of the funds.

17. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of financial assets and financial liabilities, other than those disclosed in the table below, approximate their carrying values.

The Bank's primary medium and long-term financial liabilities are the borrowed funds and subordinated liabilities. The fair values of these financial liabilities not materially different from their carrying values, since these liabilities are repriced at intervals of three or six months, depending on the terms and conditions of the instrument and the resultant applicable margins approximate the current spreads that would apply for borrowings with similar maturities.

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1 - Quoted prices (unadjusted) in active markets.

Level 2- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table contains analysis of financial instruments measured at fair value at the reporting date:

18. DERIVATIVES

Derivative product types

Swaps are contractual agreements between two parties to exchange interest based on a specific notional amount. For interest rate swaps, counterparties generally exchange fixed and floating rate interest payments based on a notional value in a single currency.

Forward contracts are contractual agreements to either buy or sell a specified currency, commodity or financial instrument at a specific price and date in the future. Forward contracts are customised contracts transacted over the counter.

Derivatives held for hedging purposes

Fixed interest rates on principal amount of loans and investments are normally hedged using interest rate swaps whose repayments dates are the same as of hedge item. These contracts are designated as fair value hedges.

Derivatives held for risk management purposes

The Bank has entered into interest rate swaps and forward contracts for risk management purposes which are usually not closed out prior to contractual maturity. The Bank ensures that its exposure is kept to acceptable level by buying and selling of foreign currencies in forward market when necessary to address short term imbalances.

The table below shows the assets and liabilities fair values of derivative financial instruments, together with the notional cash flows analysed by the term of their maturity.

| At 30 June 2020 Derivatives for hedging: Interest rate swaps Derivatives: | Assets RO '000 | Liabilities RO '000 6,032 | Notional cash flows RO '000 154,193 |
|---|-------------------|---------------------------------|--|
| Forward purchase contracts Forward sales contracts | - 2,111 | 37 | 246,465 244,391 |
| Derivatives for hedging: Interest rate swaps Derivatives: | US\$ 000 | US\$ 000 15,668 | US\$ 000 400,501 |
| Forward purchase contracts Forward sales contracts | 5,483 | 96 | 640,169 634,782 |
| At 30 June 2019 Derivatives for hedging: | RO '000 | RO '000 | RO '000 |
| Interest rate swaps Derivatives: | | 1,473 | 27,143 |
| Forward purchase contracts Forward sales contracts | 656 | 94 | 155,835 155,273 |
| Derivatives for hedging: Interest rate swaps Derivatives: | US\$ 000 - | US\$ 000 3,826 | US\$ 000 70,501 |
| Forward purchase contracts Forward sales contracts | 1,704 | 244 | 404,787 403,306 |
| At 31 December 2019 Derivatives for hedging: | RO '000 | RO '000 | RO '000 |
| Interest rate swaps Derivatives: | 137 | 1,873 | 27,143 |
| Forward purchase contracts Forward sales contracts | 668 | 17 | 154,970 155,621 |
| Derivatives for hedging: Interest rate swaps Derivatives: | US\$ 000 356 | US\$ 000 4,865 | US\$ 000 70,501 |
| Forward purchase contracts Forward sales contracts | 1,735 | 44 | 402,519 404,210 |

Fair values are included under other assets where positive and other liabilities where negative.

21. CAPITAL MANAGEMENT

The risk asset ratio is calculated in accordance with the capital adequacy guidelines of the Basel Committee on Banking Supervision and CBO Circulars BM 1009 'Guidelines on Basel III' and BM 1114 'Regulatory Capital and Composition of Capital Disclosure requirements under Basel III' effective from 31 December 2014.

During the period, as part of the relief measures CBO has lowered the Capital Conversion Buffer (CCB) requirement by 50% from 2.5% to 1.25%. The minimum capital adequacy ratio requirement for the period is reduced to 12.25% including capital conservation buffer of 1.25% (31 December 2019 and 30 June 2019: 13.5% including capital conservation buffer of 2.5%).

In order to smoothen the higher volatility in ECL computation and its impact on regulatory capital of the banks amid covid-19 outbreak, CBO has issued a new requirement to apply a "prudential filter" approach on IFRS 9 expected credit loss (ECL) provisions on calculating the regulatory capital. Any increase in the Stage 2 provisioning compared to December 31, 2019 will be added back to regulatory capital while these provisions will be gradually phased-in during a five-year period ending 31 December 2024.

| The following table sets out the capital adequacy position | Unaudited | Unaudited | Audited |
|--|-----------|-----------|-----------|
| | 30-Jun-20 | 30-Jun-19 | 31-Dec-19 |
